

Most people said that it's a fantastic thing to enter college, I can't agree more. Certainly, college time is the most valuable period in our life. Thus, I am eager to share my college life and some of my thoughts about college.

My college life is full of valuable courses and various activities, which are extremely interesting and meaningful. Busy as it is, I am utterly satisfied and delighted. In addition, I have made numerous interesting friends, from whom I can learn something useful. All in all, everything seems to be moving in a good direction. But there is an old saying: "Misfortune and good fortune depend on each other." Though there is a bright future for college life, I also inevitably encountered some confusion. For

instance, I may be puzzled about how to choose the appropriate way to learn and how to avoid being influenced by negative people. Hence, in order to handle the confusion, I came up with the following methods. Firstly, I will find my own way of learning by consulting materials and asking teachers for help. Secondly, I plan to set some goals to encourage myself to make more progress. Furthermore, not only should I learn to refuse the negative invitations from people who can't go forward, but also actively communicate with optimistic people. In a word, college provides me with a stage where I can show myself. As the old saying goes, where there is a will, there is a way. I hold the belief that my college life will be better and better!

## SWUPL, the beginning of a new life

"Golden leaves cover your path, when you come into SWUPL, you will create a brilliant new life." Humming the song softly, I walked through the gate of SWUPL with my dream and began a new stage in my life in September, and I wanted to prove my worthiness here.

First and foremost, I will achieve this by learning quintessential knowledge. SWUPL is surely a magnificent hall of learning with a dense air of study. Every teaching building is filled with hard-working students, the campus lanes. Everyone seems to have firm goals and continually make great efforts toward those goals. Since the day I saw this scene at first sight, I have made up my mind to be a more excellent student in the future. There is no denying that we shouldn't see our college life as an experience of enjoying freedom and romance, but see it as a golden opportunity for all-round development, especially in learning aspect.

In addition, appropriate entertainment is necessary for our emotional and psychological health. This is also a good time to learn something new. So on the other hand, I will start my new life by participating in some colorful activities. Fortunately, SWUPL provides what I need to pursue this objective. Our debate culture has a long history, our volunteer activities are varied in categories, not to mention the countless club activities. All these will certainly put a seal on our happiness in SWUPL. I have faith in making progress in the process of doing some activities in my free time.

Even as I am writing, the song mentioned earlier in the article is still singing in my ears, "Learn a wider variety of knowledge, live your faith, restrain yourself with the rituals and value laws in your inner-self, you will be a true SWUPL man, who is rigorous and realistic."

I sincerely hope everyone can achieve all these virtues and let them be the most precious wealth of individual SWUPL life. let's keep moving and write the next chapter of our lives!
